Assistant Commissioner for Patents  
Washington, DC 20231

Sir:

RESPONSE

In reviewing the Response dated September 30, 2002, some errors have been noted. These are as follows.

The second structure on page 10 of the Response should be as follows:  
represented by the following structure.

R<sup>4p</sup> is H, Ph, etc.

The paragraph following this structure on page 10 of the Response should read as follows (the difference to the original working being underlined):

Ohshima does not provide any motivation to the skilled person to remove the  $\beta$ -  
"R<sup>40</sup>" group (to provide the compounds of current claim 1 in which "R<sup>4p</sup>" represents H) or  
to move it to the  $\alpha$ -position (to provide the compounds of current claim 1 in which "R<sup>4p</sup>"  
represents phenyl, etc.)

Allowance of the application is awaited.

Respectfully submitted,

**NIXON & VANDERHYTE P.C.**
